

WEB SCREENSHOTS

REGISTER

A screenshot of a web browser window showing a registration form titled "Create Account". The form consists of four input fields: "First Name", "Last Name", "Email", and "Password", each with a placeholder text above it. Below the fields is a blue "Register" button. At the bottom of the form, there is a link "Already have an account? [Log in](#)". The browser's address bar shows "localhost:5173/register".

LOG IN

A screenshot of a web browser window showing a login form titled "Log In". The form has two input fields: "Email" and "Password", each with a placeholder text above it. Below the fields is a blue "Log In" button. At the bottom of the form, there is a link "Don't have an account? [Register](#)". The browser's address bar shows "localhost:5173/login".

DASHBOARD with LOG OUT and JWT Token

The screenshot shows a browser window with the URL `localhost:5173/dashboard`. The page title is "Mini App" and features a prominent "Welcome, User." message. A red "Log out" button is located at the top right. In the background, the browser's DevTools Application tab is open, displaying the storage of the current origin (`http://localhost:5173`). The "Local storage" section shows a single entry: "token" with a value of `eyJhbGciOiJIUzI1NiJ9.eyJzdWIiOiJ0Z...` . Below this, a message says "No value selected" and "Select a value to preview". The DevTools interface also includes sections for Manifest, Service workers, Storage, Session storage, Extension storage, IndexedDB, Cookies, Private state storage, Interest groups, Shared storage, Cache storage, and Storage buckets. At the bottom, there are links for Console, AI assistance, and "What's new".

BCrypt

The screenshot shows the MySQL Workbench interface connected to a Local instance MySQL 5.5. The main area displays a table named "users" from the "mini_app_db" database. The table has columns: user_id, email, first_name, last_name, and password. One row is visible with the following data: user_id=4, email=test@example.com, first_name=test, last_name=test, and password=\$2a\$10\$gkEykW7Oxj9Br7RcIQPOuyJzmHoM6u5ApbW... . The "Output" pane at the bottom shows the SQL query: `SELECT * FROM mini_app_db.users` and the result: "4 rows returned". The "Session" tab is selected in the bottom left.
